### **CAREER OBJECTIVE:**

As a fresher, my goal is to get a job and work for an organization that provides me with opportunities to enhance my skills and knowledge while aligning with the objectives of the organization.

# **EDUCATIONAL QUALIFICATION:**

Course	College/University	Year	Aggregate
B.Tech - CSE (pursuing)	NBKR Institute of Science and Technology, Vidyanagar	2020-2024	8.85(CGPA)
Intermediate	TMR Junior College, Naidupet	2018-2020	9.79
SSC	Navodaya English Medium School, Naidupet	2018	9.8 (CGPA)

### **TECHNICAL SKILLS**

Programming Languages : C, Python
Web Technologies : Html, CSS
Databases : Oracle SQL
Version Control Systems : GIT, GitHub

Operating Systems : Linux/\*nix, Microsoft Windows

IDE : VS Code, Anaconda

# **CERTIFICATION**

Microsoft Certified: <u>Azure IoT Developer Specialty</u> Certification Number: I663-0785

Hacker Ranker Python (Basic)
ID: A184DAF13050

### **WORKSHOP**

> Skill-Lync Boot Camp: Building Web Apps as a Full Stack Developer

#### **PROJECTS SUMMARY**

Project : Placement Management System for College Students.

Technologies : Git, GitHub, HTML, CSS, JS, Python, SQL

Role : Team Lead

#### **SUMMARY**

The "Placement Management System for College Students" is a project designed to streamline and automate the process of managing placements and job opportunities for college students. It serves as a centralized platform where students can register, upload their resumes, and access information about job openings, internships, and campus recruitment drives.

Key features of the Placement Management System may include:

- Student Registration: Students can register themselves on the platform, providing their personal and academic details.
- Resume Creation and Management: The system allows students to create and manage their resumes, including educational qualifications, skills, projects, internships, and work experience.
- Courses Availability: Students can able to check and register available courses in the college.
- Application Submission: Students can apply for jobs through the system by submitting their resumes and other required documents.
- Interview and Test Scheduling: The system facilitates the scheduling of interviews, tests, group discussions, and other selection rounds between companies and students.

By implementing such a system, colleges can enhance their placement cell's efficiency, increase student employability, and strengthen industry-academia collaborations. It ultimately contributes to the success and career prospects of college students.

### **PERSONAL TRAITS**

- Adaptability
- Strong Work Ethic
- Positive Attitude
- Time Management
- Team Player
- Continuous Learning

## **DECLARATION:**

I hereby confirm that all the infor	nation given above is true	to the best of my knowledge.
